The Scheme of a Local Bank for this Colony wit Bracches at the most important places in China, has been in contemplation for a very long period. The local and foreign trade in Hongkong and at the open ports in China and Japan has increased so rapidy within the last low years that additional Banking acilities are felt to be required. The Banks now in China being only branches of Corporations whose head quarters are in England or India, and which were formed chiefly with the view of carrying on exchange operations between those countries and China, are scarcely in trade which has become so much more extensive and varied than in former years. This deficiency the Hongkong and Shanghai Banking Company will supply, and will in fact assume the same position with relation to this Colony as the Presidency Banks in India, on the Banks of Australia in their respective localities.

The Establishment of a Mint in Hongkong. providing an adequate supply of proper currency, will render a local Banking medium essential to corry out its operations, and the almost certain disappearance of the existing Comprederic system (so far as money is concerned) will also ensure Bants becoming in course of time the exclusive medium for the transaction of the monetary operations connected with trado. For the anticipated success of this enterprice there are therefore ample grounds; and the great prosperity which has attended the working or other local associations in China clearly, shews Public Companies which possess an interested support naturally forms a chief element of remu-The Bank will commence operations simultaneously in Hongkong and Shanghai and as the importance of its business at the latter place must be very great, it is intended to establish a local Board of Directors there for more effectually meeting the work. As circumstances render it advisable the Bank will establish Brunches at other In the distribution of Shares Hongkong and Sharphal will equally participate. Shares will also be reserved for the other ports in China and Japan and for persons residing chewhere, who are directy interested in the China Trade. applications for Shares must be addressed until at current rates: forther notice, to the Previsional Committee, car-MESSES, DENT & Co.
